**NOTES TO THE CONDENSED FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED
31 DECEMBER 2009**

1. BASIS OF PREPARATION OF HALF-YEAR REPORT

This general purpose financial report for the interim half-year reporting period ended 31 December 2009 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2009 and any public announcements made by Global Iron Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Significant Accounting Policies

These condensed consolidated interim financial statements (the interim financial statements) have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year to 30 June 2009.

Changes in Accounting Policies

From 1 July 2009 the Company has adopted the following Standards and Interpretations, mandatory for annual periods beginning on or after 1 July 2009.

- AASB 8 – Operating Segments

This standard requires disclosure of the Company's operating segments and replaces the requirement to determine primary and secondary reporting segments. Adoption of this standard did not have any impact on the financial position or performance of the Company.

- AASB 101 – Presentation of Financial Statements (Revised)

The revised standard introduces the requirement to produce a Statement of Comprehensive Income that presents all items of recognized income and expense.

- AASB 2009-2 – Amendments to Australian Accounting Standards – Improving Disclosures about Financial Instruments

The main amendment to AASB 7 requires fair value measurements to be disclosed by the source of inputs. Adoption of this standard did not have any impact on the financial position or performance of the Company.

The Company has not elected to early adopt any new standards or amendments.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED
31 DECEMBER 2009(continued)**

Going Concern

Subsequent to 31 December 2009, the Company has entered into a Share Sale Agreement to acquire African Petroleum Corporation Limited (“APCL”). One of the conditions precedent to the completion of the Share Sale Agreement is that the Company successfully raises at least \$130 million and up to \$230 million. The capital raising will result in the Company being well funded and able to carry out planned exploration programs.

In the event that the Share Sale Agreement is not completed, the company will remain focused on the exploration and development of its existing mineral assets. Positive exploration and development results will be a key factor in the Company’s ability to attract funding and meet its financial commitments in relation to these mineral assets in the future.

The Company’s ability to continue as a going concern depends on the completion of the Share Sale Agreement and capital raising and its ability to obtain financing through equity financing, joint ventures or other arrangements in relation to its existing mineral assets.

2. DIVIDENDS

No dividends have been paid or proposed during the six month period ended 31 December 2009.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED
31 DECEMBER 2009 (continued)**

3. EXPLORATION AND EVALUATION EXPENDITURE

	31 December 2009 \$	30 June 2009 \$
Opening balance	216,791	-
Exploration expenditure capitalised	-	538,997
Less Impairment of exploration & evaluation expenditure	<u>(35,770)</u>	<u>(322,206)</u>
- Exploration and evaluation phases	<u>181,021</u>	<u>216,791</u>

The company has assessed the carrying amount of the exploration and evaluation expenditure in accordance with AASB6 – ‘Exploration for and Evaluation of Mineral Resources’ and has recognised an impairment loss of \$35,770 during the period. This amount is shown as a separate line item on the Statement of Comprehensive Income.

The value of the Company’s interest in exploration expenditure is dependent upon:

- the continuance of the Company’s rights to tenure of the areas of interest;
- the results of future exploration; and
- the recoupment of costs through successful development and commercial exploitation of the areas of interest, or alternatively, by their sale.

The Company’s exploration properties may be subjected to claim(s) under native title, or contain sacred sites, or sites of significance to Aboriginal people. As a result, exploration properties or areas within the tenements may be subject to exploration restrictions, mining restrictions and/or claims for compensation. At this time, it is not possible to quantify whether such claims exist, or the quantum of such claims.

4. SEGMENT INFORMATION

The Company has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and in determining the allocation of resources. The Company has only one operating segment, being mineral exploration in Australia.

FOR THE HALF-YEAR ENDED

5. EVENTS SUBSEQUENT TO REPORTING DATE

On 9 February 2010 the Company entered into a Share Sale Agreement to acquire African Petroleum Corporation Limited (“APCL”). Under the terms of the agreement, the Company will acquire up to 100% (and no less than 95%) of APCL by issuing APCL shareholders 906,250,050 fully paid ordinary shares in the Company, subject to a number of conditions being satisfied including the successful completion of due diligence, the receipt of shareholder approval in relation to the acquisition and the Company successfully completing a capital raising of at least \$130 million and up to \$230 million.

The capital raising will be undertaken by way of a placement of shares at \$0.55 per share. The placement is also subject to shareholder approval.

The issue of shares to APCL shareholders is considered a business combination under the accounting standard AASB-3R “Business Combinations” and will be prepared using reverse acquisition principles as the Company’s existing shareholders’ interest post the acquisition and the capital raising will be reduced to approximately 1.56% assuming the minimum capital raising and approximately 1.35% assuming the maximum capital raising.

As at the date of this report, the acquisition of APCL has not yet completed. Consequently, the acquisition accounting has not yet been prepared.

6. COMMITMENTS AND CONTINGENCIES
